Overview

UKO Group Frameless Rooflights are designed with toughened glass as standard and thermally efficient construction for outstanding performance.

Their sleek, contemporary appearance maximises natural daylight, creating bright, open interiors while maintaining a clean, uninterrupted aesthetic. They are available in both standard and made-to-measure sizes, making them ideal for a wide range of flat roof applications.

Finishes

- Pane of glazing with 100mm painted black border.
- Each rooflight is fitted with toughened glass as standard, prioritising the safety of those below.
- Slim, minimalistic framework.
- Stock sizes and made to measure sizes available.

Construction

The frameless roof light is a high quality stepped double glazed pane with a 100mm black painted border, providing market-leading performance alongside stunning aesthetics.
